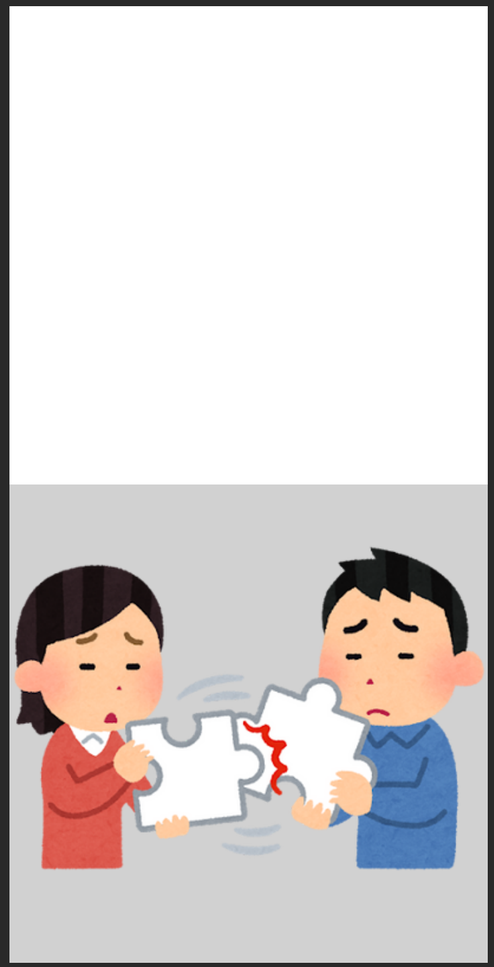
Problems

Although all 42 campuses follow the same pedagogy, each has a unique campus life with its own distinct tools and resources that foster a dynamic peer-to-peer learning environment. By exploring shared experiences and identifying common challenges faces across campuses, devise solutions that enhance the overall 42 experience. These solutions must be applicable across all campuses, creating a unified impact that benefits the entire 42 Asia community.

Narrow

Problem

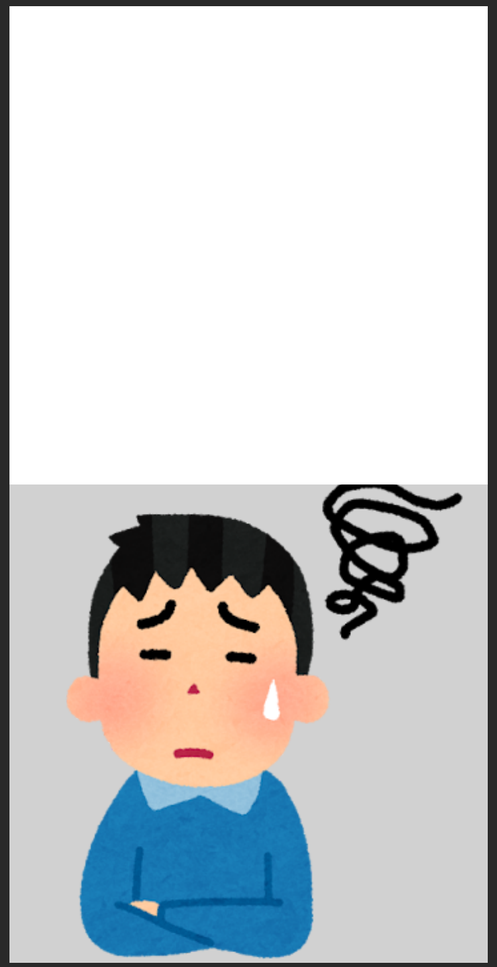
42 Networks is global community that spread over the world but each campuses are unique and stuck in their place

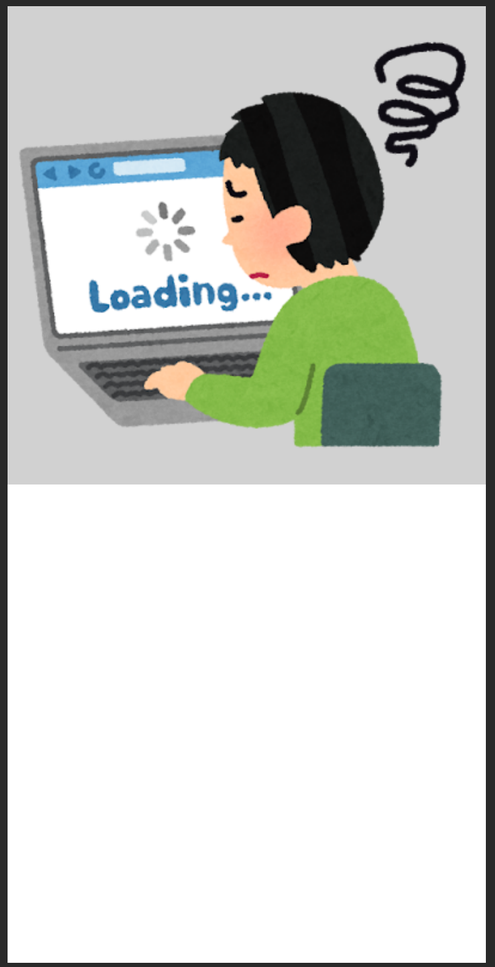


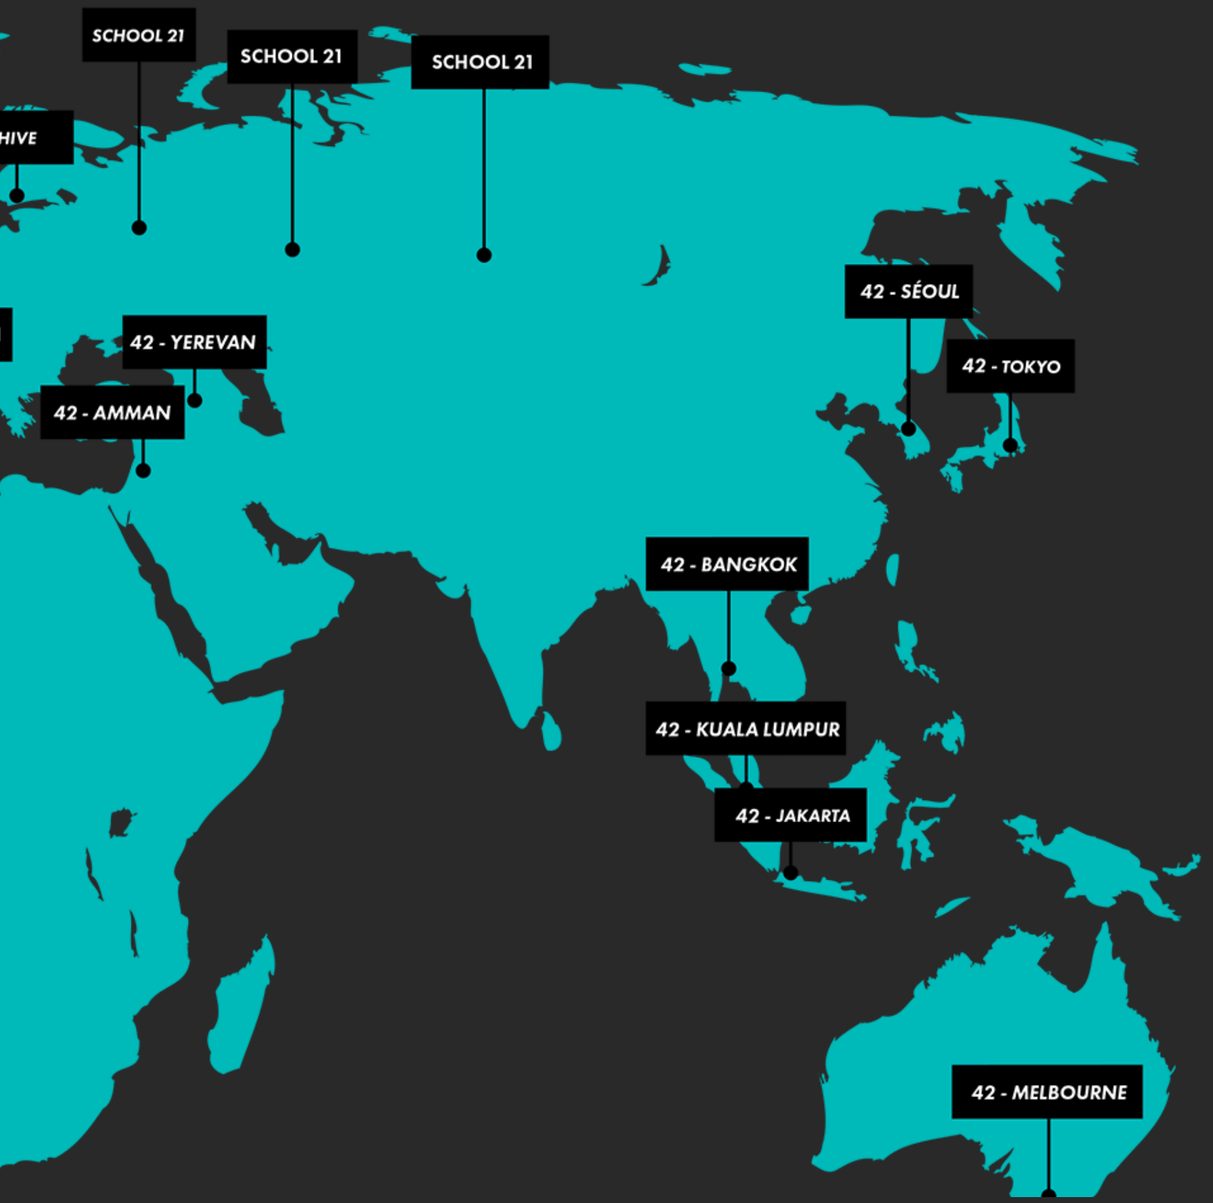
Blinding

Problem

The 42 System is big but cadet visibility is low. Each cadets could find related subject resources. Each cadet could find project partner as well

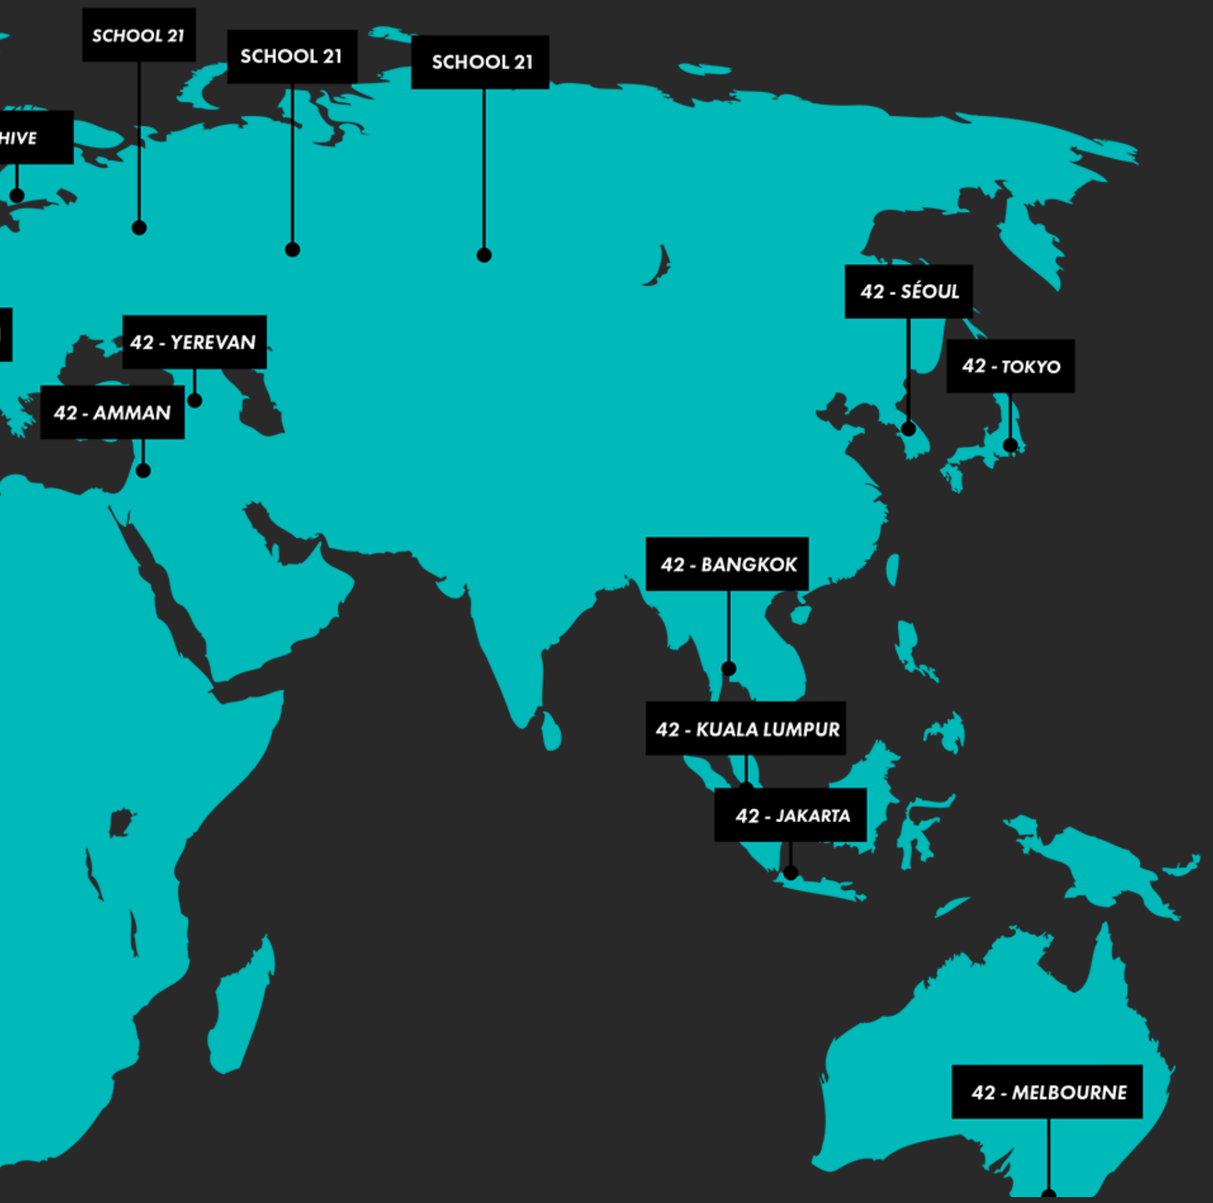






42 Network is a global network

but, somehow....



42 Network is a global network

but, somehow....

it didn't feel like it is

Extinguishing The Problem

42AI Features

Project Helpline

"Need help with your project? Our Project Helpline is here to rescue you with expert advice!"

Partner Finder

Looking for a study buddy? Use Partner Finder to connect with students for your next project!

Live Streaming

"Catch live sessions and interact with students from different campuses across Asia!"

Global Food Guide

Discover delicious food spots around the world, recommended by 42 students!

Library

"Explore a vast collection of resources, including Docker, Web Security, and more, all in one place."

42 Pets

Share your study journey with your furry friends! Join 42Pets and show off your pets!

Demo
